

INTRO:

Narrator: Well that was a rough landing... I've a feeling we're not in Kansas anymo- wait, are those cornfields?

Narrator: Can we stop walking for a second? I want to post a Boomerang on my Instagram story. Let me add a location sticker too... it says we're on Planet Stone Dog? Anyways, 1 2 3 cheese!

Alien: Greetings, apologies for photobombing. Can you tag me in that story? My handle is helpfulalien123, thank you. Also, I have made the observation that your vehicle has crashed. Unlucky, as this planet is quite dangerous for you humans... but no worries. I am here to help.

There is a substantial amount of natural water, rocks, and oil on this planet. Click "CREATE" to build industry and structure items from the fundamental materials. Let's put our brains together and make the rocket... and make sure to stay fed!

Fundamentals:

Water: The planet's water harvester automatically collects water to grow **corn, wheat, or bread**.

Rock: The planet's surface is full of rocks to create **metal**.

Agriculture:

Wheat: Harvest wheat to create **bread** at the mill.

Corn: Make sure to bring corn to the rocket as a snack.

Bread: Bon appetit! Watch out for those pesky geese though.

Industry:

Metal: About 80% of metallic materials are created by steel. Materials like **mills, robots, refineries, drills...**

Oil: Oil can be used for **fuel** once we process it through the refinery.

Fuel: Used to power the rocket.

Rocket: Our only way back home!

Structure:

Refinery: Convert crude oil to **fuel**.

Mill: Create **bread** to fuel your mind and body.

Drill: Used to extract **oil** from the planet's surface.

Robots:

These benevolent robots you've created will help harvest an extra 15L of water.

Events:

Meteor: A meteor has struck! 5kg of wheat and 10 corn cobs have been destroyed, but now you have an extra 10kg of rock!

Meteor Card.png

Electric Malfunction: Due to a poor quality assurance check of the electrical system, one of the robots has been decommissioned.

Electric Malfunction Card.png

Harvest: It's harvest season! You have gained 10kg of wheat.

Harvest Card.png

Mining Rush: Better bring a large bag for this mining rush-- you have gained 5kg of rocks.

Mining Rush.png

Overclock: It's overtime season! Robots will do 2x the work for 1 minute.

Overclock Card.png

Invasion: Some rogue aliens are extracting your resources to build their own rocket. They have taken 5kg of your metal, 5 cobs of corn, and 2 loaves of bread.

Invasion Card.png

Fire: Where was the fire safety inspector? Your mill has caught on fire!

Flame Card.png

Insomnia: You look tired! It's taking you double the amount of time to gain materials.

Insomnia Card.png

Geese: Peace was never an option. They're taking all of your bread for the next 10 seconds!

Goose Card.png

Stone Dog: The Stone Dog has arrived, and it's going after the refinery!
